1. Section 1

1.1 Introduction

Shaheed Smarak College situated in Ward No. 19 of Bharatpur metropolitan city in Western Chitwan, has been established with the hard labor of social workers, intellectuals and aware guardians in the memory of known and unknown martyrs of this area who sacrificed their life for the cause of democracy in the country. Beginning with classes of proficiency certificate level, this college has run the classes of 11 and 12 affiliated with HSEB and BEd., BBS, BCA of Bachelor level and MBS of Master Level affiliated with T.U. with 797 students of different level studying regularly at present, this college has been in the path of its development along with changing time and context. This college with 35 lectures and 7 administrative and other staffs has a strong management committee of social, intellectual and educated personalities to manage and run the college. This college is run by social personality and not motivated for personal gain or economic benefit and established for providing social service. The management committee of this college being self-motivated to uplift the status of this college and ever contemplating on how to spread the light of education and in the society has regularly conducted the meeting, interaction and conference of students, teachers and other stakeholders.

1.2 Historical Background:

Since there were not any colleges in Western Chitwan, the realization of the need of college has been felt for a long time in this area. Especially, after the restoration of multi-party democracy, the gathering of local people, local intellectual and social workers felt the need of college and formed a committee to establish the college in this area in Poush 27, 2050. The chairperson of the committee was the chairperson of Sharadangar VDC Mr. Ash Bahadur Lama. The committee decided to collect funds and voluntary economic help from the local people. Because of this great attempt, the dream of establishment of college became successful when the inauguration of the beginning of the class held in Bhadra 15, 2051 as a branch of Balkumari College, Narayangarh. But, the college was named ShaheedSmarak College by considering the great contribution of known and unknown martyrs of this area. According to this decision, and by completing the process of getting affiliation from TU on 9 Poush 2054, the college is re-organized and changed as Shaheed Smarak College, Bakhanpur, Sharadanagar.

1.3 Geographical Setting:

This college is situated in ward no. 19 of Bharatpur Metropolitan city. It is about 11 km West from its district headquarter, Bharatpur. It is located in remote part of this district. The geographical setting is located in the community where majority of the people are ethnic and aborigines. Especially the Gurung, Tamang and Tharus communities are settled in the Catchments area of this college. The college is a community based college. Due to the condition of having the occupation of traditional agriculture and lack of proper irrigation, the economic condition of people is poor. The local people have been unable to help the college to maintain the infrastructure. Despite this poor condition, the attempts of local intellectuals, social workers and local people led to establish this college and education up to Bachelor level has been provided here. The college is situated in one and

half hector of land with strong wall. The college also owns three hecters land in another place of same ward.

1.4 Social, Cultural, Economic and Political Setting:

The Western Chitwan itself is relatively poor and remote in comparison to Central and Eastern Chitwan. There is lack of infrastructure like transportation, irrigation, education etc. The roads are muddy and not properly graveled and black topped. Most of the people are farmers. But there is lack of irrigation. So, most of the people are poor. Especially, social condition of the people of Sharadanagar and adjacent area is not advanced. The majority of the people are still following traditional agriculture. It is the community of multi-ethnic and aborigines. Especially, the Gurungs and Tharus people are in majority in this area. Although Sharadanagar is the land of great martyrs, this area is still backward politically. The local people are still far behind politically. So, The College has been unable to get sufficient concern from political leaders and parties.

1.5 Educational Status and Scope:

Education status of this region is quite matched with this college. There are more than 6 +2 high school in the catchment area of this college. This college is located at the center of these schools. Bachelor level college has not been established around this area. Except inheadquarter, there is only one college in far western side of this district in Divyanagar. So, this college has the catchment area of Sharadanagar, Gunjanagar, Parbatipur, Mangalpur and some village of Jagatpur, Phulbari and Shivanagar. Since the economic condition of local people is not so strong, they can't afford much to send their children to study in district headquarter. Due to inaccessibility in the colleges of district headquarter; most of the +2 graduates have been compelled to leave their academic education. So, the Bachelor level college has one of the most required educational infrastructures of this region.

1.6 Stake Holders and Scope of their Participation:

All the local people irrespective of caste, class, sex, religion, ethnicity, students, guardians and teachers are the true stake holders of this college. It is a community based college. Its main aim is providing higher level education in very affordable cost in local area. It is also a multiple college. It aims to provide Bachelor as well as Master level education in all streams as much as possible. The participation of local people is must to run this college smoothly. The college itself had born from the donation of local people who have open hearty given donation by saving some income of their hard labor. The participation of stake holders has the great scope. As long as they participate, the college will run smoothly and it runs in the path of becoming the educational center of western Chitwan. The local people can be benefited by getting higher level education in their own region in affordable cost.
